EXPERIENCE

Aramark

Junior Data Engineer

Philadelphia, PA

March 2025 - Present

- Built and maintained real-time ETL pipelines across multiple POS systems using Snowflake, dbt, Python, and SQL. Developed dbt models and used Streams and Tasks to automate incremental transformations and orchestration for large-scale ingestion workflows.
- Built an AI-driven data harmonization system across multiple POS platforms using Snowflake, dbt, Streamlit, Python, and LLMs to standardize 200K+ items across 134 venues. Reduced item processing time by ~85–90% while enabling ~20% auto-approval through an automated review workflow.
- Implemented data quality, audit, and monitoring frameworks across production pipelines. Added validation, logging, and observability checks in Snowflake and dbt, improving data reliability, traceability, and reducing manual review workload.

Drexel University

Senior Data Analyst

Philadelphia, PA

September 2023 - Present

- Lead the facilitation of surveys and data collection for innovators dedicated to addressing practical challenges in the food system, with a focus on sustainability and health promotion. Projects utilize data visualization tools, Python, and Qualtrics.
- Conduct comprehensive data analysis using Python and Qualtrics in collaboration with a multidisciplinary team for an Environmental Protection Agency (EPA) grant project, focusing on upcycling initiatives and food waste reduction.

Avanade

Associate, Data Engineering Intern

Philadelphia, PA

May 2024 - July 2024

- Supported the ETL team by designing, optimizing, and implementing quality validation within data pipelines in Azure Data Factory and Snowflake. Delivered three presentations to the data engineering team on a pipeline technical overview, a team project review, and a hands-on Azure AI demonstration.

Superbrewed Food Inc.

Food Scientist - Food Lab Manager

New Castle, DE

November 2021 - April 2023

- Managed the development of functionality and sensory data for a postbiotic protein ingredient, emphasizing a data-driven approach to assess and enhance product attributes. Functioned as the primary contact for external partners.
- Facilitated data-centric collaboration across internal teams, including CEO, manufacturing, business development, fermentation, and operations, aligning day-to-day activities and long-term strategic objectives.

EDUCATION

Drexel University

MS in Data Science

Philadelphia, PA

Graduation Date: March 2025

- Coursework: Data Acquisition and Pre-Processing, Programming Foundations, Information Visualization, Data Analysis and Interpretation, Database Management Systems, Quantitative Foundations of Data Science, Cloud Computing, Applied Machine Learning, Natural Language Processing, Information Systems Analysis | GPA: 3.97

BS in Food Science

Graduation Date: June 2021

- Minors in Business Administration and Food Studies | GPA: 3.76 | Pennoni Honors College, Student Ambassador

SKILLS

Programming Languages: Python (NumPy, Pandas, Seaborn, Matplotlib, scikit-learn, etc.), SQL, R
Databases: Snowflake, MySQL, Oracle
Data Tools: dbt, Sigma, Databricks, Tableau, Power BI, Excel, Jupyter Notebooks, Google Colab
Version Control: Git, Github, Azure DevOps
Cloud Platforms: Microsoft Azure, AWS

Certifications:
SnowPro Core COF-C03
Microsoft Azure Fundamentals (AZ-900)
Microsoft Azure Data Fundamentals (DP-900)
Microsoft Azure AI Fundamentals (AI-900),
Databricks Lakehouse Fundamentals

PUBLICATIONS

- Co-author, [Culinary Home Empowerment for Food Waste Prevention and Minimization \(CHEF-WPM\): Protocol to investigate the feasibility, acceptability and preliminary efficacy of a household food waste prevention and minimization](#), *MDPI*, September 2024
- Co-author, [Umami Taste for Health](#), *Food and Health*, July 2023.
- Co-author, [“No Need to Get Salty” Or Is There? Sodium Functionality as a Consideration in Nutrition Public Health Policy](#) *Food and Nutrition Sciences (FNS)* Vol.12 No.2, 2021.
- Co-author, [Culinary Scientists Collaborating with City Health Department and Manufacturers to Improve Public Health: A Case from Philadelphia's Sodium Reduction in Communities Program](#), *Journal of Culinary Science and Technology*. 27 September 2019.
